## FAQS

Here are some key frequently asked questions that may be helpful.

### How are your products delivered?

Most report orders are fulfilled and delivered online through our customer portal, AMA Research Interactive [www.amaresearch-interactive.co.uk](http://www.amaresearch-interactive.co.uk). You will be able to access purchased report files in your account on the customer portal as soon as the order has been processed by us. Unless otherwise specified, reports will be delivered in PDF format, with a single user license.

In some instances reports may be delivered via email. This is usually the case when the order includes documents that are still in draft format, or reports or data relating to bespoke research. In this case, a PDF version of the report will be sent to your email address.

### When will I receive my report?

Our system does not allow for immediate download of purchased content, as we require an account to be set up on our customer portal, which is done manually.

If you have ordered an electronic format, delivery can be expected within 4 working hours (UK Time 8.30 am – 5.30pm Mon-Fri) except on weekends and UK public holidays. All hard copy orders are dispatched within 24 working hours. If you are located outside the

UK, please remember to take into account the time difference and normal UK business hours.

If you are not a UK registered limited company we normally ask for payment before delivering the reports to you.

### I want to buy several reports, can I get a bulk discount?

We may offer discounts for purchases of 3+ reports in the same transaction. Subscriptions provide even better value.

### Which licence do I need?

Our reports come with a single user licence, which allows for access on a single computer. However, AMA Research offers a range of different licence options to suit your requirements.

### I can't find a report on the topic I am interested in?

If you can't find what you are looking for, please get in touch with us and we will point you towards the most appropriate report for you. We also offer bespoke research services and consultancy, so if the topic is not included within our reports, we may still be able to help find this information for you.
