

AMA Research | Part of **Barbour ABI**

Building and construction market
research trusted by blue chip
companies, global consultancies,
and leading retailers

AMA Research is the leading specialist provider of market research and insight to the UK building and construction industries.

With solid industry insight you can eliminate guesswork in strategic decision-making; giving you confidence that you're steering your business in the right direction.

- **With a strong view of your organisation's position, you can spot and take advantage of new market opportunities.**
- **A greater understanding of your supply chain - from procurement to distribution - means you can streamline operations and improve decision-making.**
- **Reliable insight on products and services helps you build a clear picture of the products or services you should be developing and launching.**
- **With a thorough analysis of your buyers and competitors, you can develop powerful positioning, effectively monitoring your brand and customers.**

We provide an unrivalled depth of market information and data on construction products, sectors and services. Backed by Barbour ABI, we have access to the data and technological tools of a global research house. And we continue to grow our knowledge base, gathering intelligence in areas where data does not yet exist.

- **Industry decision makers use our reports as their primary source of market data.**
- **Clients get critical insight to successfully create, launch and sell construction products into new and existing markets.**
- **We provide bespoke research for clients that want to address specific organisational challenges.**

Over

The AMA Research team are united by their passion for quantifying the built environment. The numbers we generate – whether tracking market sizes, company shares, sector values, trade volumes or product demand – are the basis for understanding specific markets, analysing trends and being able to apply this to forecasting future growth. We love to dive into the detail and get to the truth of what, why and where; and we love finding ways to make this insight accessible and easy to apply to strategies and plans that help our customers grow.”

Laura Pardoe - Product Manager

Sector Market Reports

A wide-ranging snapshot of key sectors across the building and construction industry.

Powerful insight, with in-depth analysis on residential and non-residential sectors, our sector market reports provide critical data on structure, influences, trends and forecasts.

Meet the Team

Industry commentators, thought leaders and research specialists: we're committed to growing your business.

Our people know the industry inside and out.

With a thirst for knowledge and the skills to reveal new insights, they're experienced at extracting valuable data that shines a light on market trends.

We build bespoke teams of experts for clients that need insight for a specific challenge.

And the results speak for themselves, with clients that keep coming back – year on year.

Tom Hall
Chief Economist

An experienced speaker at industry events, Tom works with media and industry bodies to develop commentary on the built environment.

Laura Pardoe
Director

With past roles including Head of Insight for National Trust, and UK Marketing Manager for BP, Laura has been honing her skills in research, insight and marketing for over two decades.

Abdul Tantouch
Head of Content

Abdul has been working in research analysis for over 9 years, and specialises in financial data analysis and investigative research.

Amanda White
Contact Manager

A skilled researcher, Amanda has a strong portfolio delivering qualitative, quantitative and face-to-face research with building and construction professionals.

Alex Blagden
Senior Market
Research Analyst

An experienced senior researcher, Alex has been delivering bespoke research projects for some of the biggest names in the building and construction industry for more than 20 years.

Michael Graham
Research Manager

Michael was a researcher the Stephenson Institute for Renewable Energy, University of Liverpool for 8 years as a PhD student and postdoc, developing thermal energy storage materials for use in applications such as zero carbon buildings.

Consultancy

Valuable insight and intellectual property, designed to meet your business needs.

Combining industry experience, research skills and a passion for knowledge, our team delves deeper to uncover fresh insights.

They design and deliver wide-ranging research, which draws insight from critical stakeholders and decision-makers across the industry.

Giving you industry-leading intelligence – whatever your challenge.
